ABSTRACT

As recent terrorist attacks on the United States, such as the Oklahoma City (Oklahoma) bombing, and the ongoing conflicts in the Middle East have shown, terrorism is an unfortunate reality that can have potentially devastating effects on governments, businesses, and individuals. This encyclopedia provides students, researchers, journalists, and policy makers with a complete survey of this rapidly growing problem. The encyclopedia contains 300+ entries, organized in an accessible A-to-Z format, and offers thorough treatment of the events, people, organizations, and places prominent in international terrorism. Each entry is placed within its historical context to help readers understand the wide-ranging motivations behind terrorist actions. Also included in this comprehensive encyclopedia is a chronology of terrorist events that have occurred from 1945 to the present. Entries in the encyclopedia discuss topics, such as: aerial hijacking; anthrax; Osama bin Laden; Carlos the Jackal; cyberterrorism; Montana Freeman; nuclear terrorism; Oklahoma City bombing; September 11th attacks on New York and Washington DC; Tokyo (Japan) gas attacks; and the Unabomber. Contains an extensive selected bibliography. (BT)

ENCYCLOPEDIA OF TERRORISM

As recent terrorist attacks on the United States, the Oklahoma City bombing, and the ongoing conflicts in the Middle East have shown, terrorism is an unfortunate reality that can have potentially devastating effects on governments, businesses, and individuals.

Written by two well-known experts on the subject, the *Encyclopedia of Terrorism* provides students, researchers, journalists, and policy makers with a complete survey of this rapidly growing problem. More than 300 entries organized in an accessible A-to-Z format offer thorough treatments of the events, people, organizations, and places that have figured prominently in international terrorism. Each entry is placed within its historical context to help readers understand the wide-ranging motivations behind terrorist actions.

Also included in this comprehensive volume is a chronology of terrorist events that have occurred from 1945 to the present.
